

## H103C9 Conventional - 103 Day

H103C9 is a drought tolerant hybrid that can work very well on tough ground. It has a flared husk for better dry down which allows it to push further north and shows excellent resistance against foliar diseases. It is rated excellent for Goss's Wilt and Gray Leaf Spot. Similar hybrid to H105C9, but is more stress tolerant. Does not have quite the top end as our 105 day but is fully capable of yield when conditions allow.

### Quick Description:

- Excellent dry down
- Drought tolerant
- Great against Goss's Wilt

<b>Maturity</b>	103	<b>Early Plant Vigor</b>	Excellent
<b>Silking (GDU)</b>	1315	<b>Root Rating</b>	Average
<b>Black Layer (GDU)</b>	2575	<b>Stalk Rating</b>	Good
<b>Ear Type</b>	Semi-Determinate	<b>Goss Wilt</b>	Excellent
