

H97C9 Conventional - 97 Day

H97C9 offers considerable top end yield potential but brings along resiliency and has the ability to withstand less than ideal growing conditions. It has great root strength and is a very versatile variety that grows well in different regions and growing conditions. Well suited for irrigated or dryland acres and can be planted anywhere from 15k-36k populations. Have to watch Goss's wilt on this variety, but otherwise is a homerun product.

Quick Description:

- High yield potential
- Widely adaptable to different growing regions
- Exceptional ear flex

Maturity	97	Early Plant Vigor	Very Good
Silking (GDU)	1225	Root Rating	Very Good
Black Layer (GDU)	2375	Stalk Rating	Good
Ear Type	Semi-Flex	Goss Wilt	Average
Plant Height	Medium	Gray Leaf Spot	Average
Test Weight	Fair	Northern Leaf Blight	Average
Corn on Corn	Very Good	Stalk Anthracnose	Average
