

H102C Conventional - 102 Day

H102C is a solid hybrid that works well for northern growers, but does not move down south well. Stable variety but has the potential to bring yield when conditions allow. Shows excellent roots and early plant vigor. All around great hybrid that moves well east to west.

Quick Description:

- Good yield potential
- Excellent roots
- Reliable in northern areas

Maturity	102	Early Plant Vigor	Very Good
Silking (GDU)	1315	Root Rating	Excellent
Black Layer (GDU)	2460	Stalk Rating	Average
Ear Type	Semi-Flex	Goss Wilt	Average
