72X17G

117 Day Corn Hybrid

$165

KEY BENEFITS

→ Tall, large statured hybrid

→ Heavy testweight

→ Excellent emergence and early vigor

HYBRID OVERVIEW

72X17G is a very large statured hybrid that works for grain in the Mid-South and as full season silage most other places. It's grain is dense and heavy. Slow drydown allows a wider optimum cut timing window than most hybrids for silage. This hybrid responds well to high management silage systems. Genetics trace back to B73/B37 x Mo17 blood.
