H112+

112 DAY
CORN SEED HYBRID

PERFORMER

KEY BENEFITS

- Highly adaptable “Swiss Army Knife” hybrid
- Excels in low-input environments with excellent drought tolerance
- Wide leaves enhance canopy and weed suppression

HYBRID OVERVIEW

H112+ is a Swiss Army Knife for its adaptability and performance across diverse environments. This 112-day hybrid excels in grain but also works well for silage, making it a top choice for producers aiming to maximize yield on various soil types. Whether you're working with dryland, irrigated, productive, or marginal soils, H112+ delivers consistent results with its excellent drought tolerance and impressive ear girth.

PLACEMENT RECOMMENDATIONS

Fits across all soil types and yield environments. From marginal ground to highly productive.

AGRONOMIC TIPS

Leverage H112+'s strong root system and moderate stalk strength for optimal performance. It shines in drought conditions, maintaining ear size and yield potential even under stress. Adjust planting populations to maximize yield potential and ensure stability.

SUITABLE GROWING REGIONS

ID, UT, CO, KS, NE, SD, IA, MO, TX, LA, AR, MS, AL, TN, KY, IL, GA, IN, OH, PA, DE, MD, VA, NC, and SC

MARKET & USAGE PROFILE

H112+ is a dual-purpose hybrid, excelling in both grain and silage production. Its stable performance across locations makes it a popular choice for low-input environments.

ATTRIBUTES

Productive Soil	
Marginal Soil	
Drought Tolerance	
Yield	
Plant Health	
Green Snap	
Drydown	
Plant population	14-32k
Use	Dual Purpose

SPECS

Silking	1442
Black Layer	2760
Ear Type	Full-Flex
Plant Height	Medium
Test Weight	Good
Corn On Corn	Good
Early Plant Vigor	Very Good
Root Rating	Good
Stalk Rating	Good
Goss Wilt	Excellent
Gray Leaf Spot	Fair
Northern Leaf Blight	Good
Stalk Anthracnose	Fair
Maturity	112
