ADAPTABLE

KEY BENEFITS

- H112+'s little brother
- Widely adaptable
- Heat and drought tolerant
- Great staygreen

DESCRIPTION

24X06 is a widely adaptable hybrid with a similar genetic background as H112+. It can handle about any soil type and any yield environment, but cannot handle high GLS pressure without a fungicide treatment. While it is capable of high yield potential, it also shows excellent drought tolerance, and can work on marginal soils.

WHERE IT FITS

This hybrid can fit on both marginal and productive soils.
