- Great top end potential
- Outstanding test weight

PRODUCT IMAGES

Nebraska Test Plot - Fall 2024

HYBRID OVERVIEW

24P02 fits productive and moderately productive soils. It exhibits very good drought tolerance as well as good standbilty. This hybrid is short and has very attractive late season plant intactness and staygreen. 24P02 shows excellent test weight in its grain, and has a fairly determinate ear. We suggest elevated populations compared to most of our products.

PLACEMENT RECOMMENDATIONS

Productive and moderately productive soils.
