

# 24X12

## 112 DAY CORN SEED HYBRID

ADAPTABLE

### KEY BENEFITS

- Heavy test weight grain ideal for food-grade markets
- Enhanced ear girth for higher yields
- Tall stature with strong standability, suitable for grain and silage

### HYBRID OVERVIEW

24X12 works across a wide geographic range, offering exceptional yield potential and robust plant health. With its medium-tall stature and impressive heat tolerance, this hybrid is a top contender for both grain and silage purposes. Its heavy test weight and beautiful grain make it an excellent choice for food-grade markets. Compared to its sibling, 23P12, 24X12 boasts enhanced ear girth, making it a standout performer in diverse environments.

### PLACEMENT RECOMMENDATIONS

Moderate and high yield potential acres.

### AGRONOMIC TIPS

To maximize yield, avoid overcrowding this hybrid. Its strong roots and moderate stalk strength ensure stability, even in challenging conditions. 24X12 shines in drought scenarios, maintaining ear size and yield potential under stress.

### SUITABLE GROWING REGIONS

PA, ID, IA, IN, IL, OH, NE, KS, MO, MD, VA, DE, AR, LA, MS, AL, GA, SC, NC, TN, KY

Ideal placement: PA, IN, and OH

### MARKET & USAGE PROFILE

With its high test weight and food-grade potential, 24X12 is perfect for growers targeting premium grain markets. Its towering height also makes it suitable for silage, providing exceptional tonnage potential.

### ENVIRONMENTAL ADAPTABILITY

24X12 is a versatile hybrid that performs well in both irrigated and dryland conditions. Its excellent disease resistance, particularly against gray leaf spot, ensures healthy growth throughout the season.

### ATTRIBUTES

Productive Soil	8	<div style="width: 80%;"></div>
Marginal Soil	9	<div style="width: 90%;"></div>
Drought Tolerance	8	<div style="width: 80%;"></div>
Yield	9	<div style="width: 90%;"></div>
Plant Health	8	<div style="width: 80%;"></div>
Green Snap	7	<div style="width: 70%;"></div>
Drydown	6	<div style="width: 60%;"></div>
Plant population	26-34k	
Use	Dual Purpose	

### SPECS

Silking	1410
Black Layer	2740
Ear Type	Semi-Flex
Test Weight	Excellent
Corn On Corn	Very Good
Early Plant Vigor	Very Good
Root Rating	Good
Stalk Rating	Very Good
Goss Wilt	Excellent
Gray Leaf Spot	Very Good
Northern Leaf Blight	Very Good
Stalk Anthracnose	Very Good
Maturity	112
