25P03

103 DAY
CORN SEED HYBRID

PERFORMER

KEY BENEFITS

- Phenomenal root strength
- Widely adaptable to different growing regions
- Exceptional ear flex
- Excellent drought tolerance

DESCRIPTION

245P03 offers considerable top end yield potential, but brings along the toughness to withstand less than ideal growing conditions. It has great root strength and is a very versatile variety that grows well in different regions and growing conditions. Well suited for irrigated or dryland acres and can be planted anywhere from 15k-38k populations. Have to watch Goss's wilt on this variety, but otherwise is a homerun product.

WHERE IT FITS

All soil types and poor to moderately productive acres

INBRED SELECTION

Stiff Stalk parent contributes outstanding roots; Iodent parent brings broad adaptability, ear girth, and top end yield

GEOGRAPHIC REGIONS

NY, PA, MI, MN, WI, ND, ID, MT, SD, WY, CO, UT, IA, IN, IL, OH, NE

ATTRIBUTES

Productive soil	9
Marginal soil	9
Yield	9
Drought tolerance	9
Plant health	6
Green snap	8
Drydown	9
Plant population	12k-38k
Use	Grain

SPECS

Maturity	103 days
Silking (GDU)	1260
Black layer (GDU)	2420
Ear type	Semi-Flex
Plant height	Short
Test weight	Fair
Corn on corn	Average
Early plant vigor	Excelent
Root rating	Excellent
Stalk rating	Excellent
Goss Wilt	Average
Gray Leaf Spot	Average
Northern Leaf Blight	Average
Stalk Anthracnose	Average
