

H87C9 Conventional - 87 Day

H87C9 is our 87 day corn that has great drought tolerance making it a good choice for western and northern growers. This hybrid comes from a male parent line that is a major contributor in the seed corn industry. Excellent early plant vigor means this hybrid is up and growing strong right out of gate. H87C9 offers good stress tolerance and timely drydown. Great variety for northern growers.

Quick Description:

- Consistent with good yield potential
- Male parent is huge industry player
- Great drought tolerance

Maturity	87	Early Plant Vigor	Excellent
Silking (GDU)	1100	Root Rating	Very Good
Black Layer (GDU)	2150	Stalk Rating	Very Good
Ear Type	Semi-Flex	Goss Wilt	Very Good
Plant Height	Medium Short	Gray Leaf Spot	Excellent
Test Weight	Average	Northern Leaf Blight	Very Good
Corn on Corn	Excellent	Stalk Anthracnose	Very Good
