26P17

117 Day Corn Hybrid

$115 NON GMO

KEY BENEFITS

- Highest yield potential for southern growers.
- Solid heat tolerance
- Great fit for southern growers that like great plant health and need yield punch on their most productive acres

HYBRID OVERVIEW

26P17 means yield in the Deep South and is our highest yield potential in a southern hybrid. It is a rachehorse variety for irrigated or highly productive dryland acres. It's plant architecture is tall and closes canopy well. Its tight husks help minimize ear molds, especially fusarium ear mold.

PLACEMENT RECOMMENDATIONS

This is the hybrid for your most productive acres.
