Override AG

24P96G

96 Day Corn Hybrid

$165

KEY BENEFITS

- → High yield potential
- → Widely adaptable to different growing regions
- → Exceptional ear flex
- → Excellent drought tolerance

HYBRID OVERVIEW

24P96G offers considerable top end yield potential, but brings along resiliency and has the ability to withstand less than ideal growing conditions. It has great root strength and is a very versatile variety that grows well in different regions and growing conditions. Well suited for irrigated or dryland acres and can be planted anywhere from 15k-38k populations. Have to watch Goss's wilt on this variety, but otherwise is a homerun product.
