Override AG

25D18G

118 Day Corn Hybrid

$165

KEY BENEFITS

- → Does very well on tough soils
- → Remarkable drought and heat tolerance
- → Great fit for southern growers
- → Silage or grain depending on soil

HYBRID OVERVIEW

25D18G is exceptional in areas where summers tend to be hot and dry. It is a workhorse variety that performs very well on marginal ground. Long, thick husks reduce the potential for problems with mycotoxins producing clean grain. This 118 Day gives great tonnage when chopping for silage and is an excellent fit for grain production on tough soils and in areas with limited rainfall. Not well suited for grain on highly productive, irrigated acres but does produce incredible silage tonage in these production systems.

PLACEMENT RECOMMENDATIONS

This is the hybrid for your toughest acres.

GROWING REGIONS

• Dual purpose: NC, SC, GA, AL, MS, TN, AR, TX, AZ, VA, OK, KS, CA, MO, LA, KY, FL

• Silage: NM, CO, PA, OH, NE, IN, IA, IL, WV, MD, DE, NJ

PERFORMANCE ATTRIBUTES

Productive Soil	7
Marginal Soil	9
Drought Tolerance	9
Yield	8
Plant Health	7
Green Snap	6
Drydown	4
Plant Population	17-32k
Primary Use	Dual Purpose

TECHNICAL SPECIFICATIONS

Silking	1475
Black Layer	2810
Ear Type	Flex
Plant Height	Very Tall
Test Weight	Very Good
Corn On Corn	Good
Early Plant Vigor	Good
Root Rating	Good
Stalk Rating	Good
Goss Wilt	Very Good
Gray Leaf Spot	Good
Northern Leaf Blight	Very Good
Stalk Anthracnose	Very Good
Maturity	118
