H104S

104 DAY

ADAPTABLE

### KEY BENEFITS

- Dual purpose, Silage or Grain
- Widely adaptable
- Heat and drought tolerant
- Excellent test weight

### DESCRIPTION

H104S is a robust hybrid, capable of high silage or grain yields that we recommend for the Western Corn Belt. It can handle about any soil type and any yield environment, but cannot handle high disease pressure. While it is capable of high yield potential, it also shows excellent drought tolerance, and can work on marginal soils.

### WHERE IT FITS

This hybrid can fit on both marginal and productive soils.

### GROWER NOTES

Excellent grain quality. Toughness.
